Hereinafter called the Applicant, is hereby granted permission to install and maintain the facilities as described herein on county right-of-way, of County Road _____

Facilities to be installed pursuant to this permit are:

_____ in accordance with plans, specifications and maps attached hereto.

For purposes of this permit "road right-of-way" shall mean the road right-of-way as it exists on the date of execution of this permit and shall also include that area within seventy-five feet of the center of the road right-of-way over which the Board of Grant County Commission has control pursuant to North Dakota Century Code Section 24-01-42.

INSTALLATION AND MAINTENANCE: Installation and maintenance of said facilities on road right-of-way shall conform to the following provisions:

Upon construction, maintenance, relocation or removal of said facilities, any right-of-way scars shall be removed and the disturbed areas restored to original condition, including the reseeded thereof where necessary. Trenches dug within the road right-of-way exclusive of the roadway and inslopes shall be backfilled and compacted to a density equal to that of the adjacent undisturbed soil. Trenches dug in the roadway and inslopes when necessary shall be backfilled using only approved materials and compacted to 90% of the maximum dry density as determined by AASHTO T-180. The moisture content of the soil at the time of compaction shall be not less than 1% below the optimum moisture content nor more than 2% above the optimum moisture content. All costs incurred with regard to inspection and compaction testing conducted by Grant County or its designees shall be borne by applicant.
